Relevant Education
Cibertec - Lima
Computer Science and Information Technology
Expected graduation: mid-2026

Previous Experience
Medical Interpreter – Bilingual Language Services
October 2022 – April 2025
 • Facilitated communication between patients and healthcare providers, interpreting from English to Spanish and vice versa, ensuring message accuracy.
 • Assisted medical providers with specific requests during scheduled sessions.
 • Worked under pressure in situations where accuracy and speed were essential.

Projects

Worklink: platform to find professional workers
September 2025
 • Worklink is a web platform to search for professional services.
 • Implemented user registration, login, profile editing, gallery management, and database with Supabase
 • Developed the interface with React.js, TypeScript, Next.js, and SCSS.

Strive: an online store for digital content (DLCs)
September 2025
 • Built an online shop for downloadable video game content (DLCs).
 • Developed the interface using React.js, TypeScript, Next.js, and SCSS for styling.
 • Managed purchases and the cart directly in the database instead of localStorage.
 • Designed a fully responsive and optimized interface for different devices and screens.

Web Portfolio
July 2025
 • Built a personal portfolio using JavaScript, React, and SCSS for styling.
 • Designed a responsive website.
 • Implemented smooth transitions with GSAP to enhance navigation experience.
 • Prepared the portfolio to be viewed in both English and Spanish.

Some of my other projects are available on my Github
